Automatic transcript. Not a word-perfect manuscript.

G'day, I'm your host Ashton Campbell and welcome to Breaking Generational Curses. This is the third installment of the series Breaking Generational Curses, Breaking the Cycles of Generational Curses. In the first two we looked at the Bible's view of generational curses and we looked at what curses could be levied against you as you are currently living now. You may have things happening in your life that you cannot understand, but these things you may have inherited through your ancestors.

Today we're going to speak about our own bloodline and what exactly should we be looking at when we are trying to trace what is affecting us currently today and the roots thereof. If we inherit looks and skills from our ancestors, then we have to ask ourselves, what else have they given us spiritually? Families before our time or even in our time have made covenants. We are not sure what our ancestors have made a covenant with or who they made a covenant with and for what is the reason they made those covenants with.

Families have vices and the spirits that are behind the covenants, the enforcers, that's what they call enforcers. These enforcers, they induce things like alcohol, drug addiction, violence. They make people angry. People suffer from anxiety. They breed fear into the family. They put things like generational poverty inside of the family. They put poverty mindsets inside of the family. And in order for us to recognize why we are in the situations that we're in, for example, why we are at the age of 40 and not married, why we have relationships that continually fail, yet when we look at other people who are considered worse off than us, but yet they have such successful relationships, or at least long-lasting relationships, then we have to start looking at what is at play in our lives.

There is a level that goes beyond what you have done in your life. We are purchased by the blood of the Lamb. Once you have repented, you receive the free gift of God. I am choosing to enter into the covenant with Christ. That's what you are saying. But before Christ Jesus, when he gave us this covenant of love, what were the covenants my ancestors were making, and

what contracts they had entered into, into the realm of the Spirit, and what are the spiritual legal issues that I am now currently dealing with in my life today? A covenant is a legal contract between a higher power and a lower power.

The higher power will offer benefits to the lower power, as long as the lower power continues to serve the higher power. So our ancestors, if they had wanted some sort of gain or victory, would then seek out a higher power. It may not have been God. It may have been something that the village... It was worshipping at the time, or it may have been the God of the area at the time. So they would go to the higher power and they would ask for benefits from the higher power.

But in order for the higher power to give these benefits, a contract and an agreement had to be reached. Now God was very clear when He said that you should have no other gods before Him. And that He would visit the iniquities of the fathers and the forefathers upon the children. So just like the looks that we inherited from our parents, we also inherited these contracts and covenants through our ancestral bloodline. And we are now in a space where we have to deal with it.

But God has provided the provision for us to break these cycles over our lives. God constantly speaks of foundations. And when He's dealing with us, He says that He will look at our foundations to see what is really there. When we are dealing with ancestral covenants and contracts and agreements, then we need to pray and ask God to show us our foundations so that we can see. Now we may not physically see the foundations, but we will spiritually see the foundations and what is inside those foundations.

Another source of information for us is to go and ask our parents. I need to ask you a question. Have you ever consulted a tarot card reader? Have you ever consulted a palm reader? Have you ever consulted a medium? Have you ever consulted a witch doctor? A sangoma? Have you ever read tea leaves? Have you ever done anything that is against the will of God? And do you know if maybe granny or grandpa had done such things? Did you have a spiritual bath? Did you ever go to the ocean or the river? Did you slaughter a chicken? Did you slaughter a cow? Did you slaughter a bull or a goat? Were you ever covered in blood? What was the reason for it? These questions help you understand what legal contracts your ancestors may have entered into.

Spiritual contracts don't work like physical contracts. God laid down the foundations for all spiritual contracts. When he met Abram, he said to Abram, I will be with you. I will be with your descendants. He said, I will be your God and you will be my people. He said that we must obey him. And there are various rules that the Lord set out in the contract. God being

the higher power and Abram being the lower power or the vassal. Every other spiritual contract follows this principle.

Except the contracts our ancestors entered into do not bless, but they curse. Genesis 12, 1-3 says, And I will establish my covenant between me and thee and thy seed and after thee and in their generation for an everlasting covenant to be with God. Now take note of that word, an everlasting covenant. The spirits that our parents or great-grandparents have gone to to consult are there not for that specific time only. They're not there for a month. They're not there for a day.

They don't leave. Whatever purposes they were needed for is completed. Now, according to the spiritual laws of God, it is everlasting. So they're there to stay in our lives. So in the same pattern that Adam sinned and defiled the land and had an issue with God afterwards, is the same pattern our ancestors follow who are not in Christ Jesus. Jesus, your genealogy in you carries a history. And at your birth, you inherited the family name. I have personally been on a two-year journey cleaning my bloodline from my dad's side and my mother's side.

Everything my family valued, that we did effortlessly together, needed to be evaluated and reassessed. What I considered normal behavior, I had to come against it with the word of God so I can correct my behaviors that I have inherited through my family. And I was able to do this because I picked up my cross and I viewed the traditions of men that were in my family and I stood against it with the blood of Jesus. Now, Jesus is an intricate part in the role that he has to play to break all the iniquities, the transgressions and the sins and covenants that are in our bloodline.

Because all that our family did and our ancestors did was make war against God with the things they did to foreign gods. So whatever I have inherited in my bloodline that is negative, I no longer use it. I no longer agree with it. I no longer accept it. I have analyzed what it is and I have cut it out of my life. Whatever is good that was handed down from generation to generation, that part I keep and walk with it because that's the part I'm going to give to my children. 1 Peter 2 verse 9 says, But you are a chosen generation, a royal priesthood, a holy nation, his own special people, that you may proclaim the praises of him who called you out of the darkness into his marvelous light.

The promise of priesthood comes from the Levites, the tribe of Moses. They were chosen by God to serve him and the people. They were set apart by God, holy in their service unto the Lord. Numbers 18 verse 20 says, Then the Lord said to Aaron, You shall have no inheritance in the land, nor shall you have any portion among them. I am your portion and your inheritance among the children of Israel. God himself was the inheritance. We are God's children now,

reborn into his son's covenant that makes us the royal priesthood, who work for him and declare the praises of him.

So we have the inheritance of God. One single inheritance. So our past inheritance must fall, must be nullified. All demonic handwriting of ordinances against us must be blood washed. We receive... The blood from the cross to wash away all those ordinances set up against us. Colossians 2 says, having wiped out the handwriting of requirements that was against us, which was contrary to us. And he has taken it out of the way, having nailed it to the cross.

That is the free gift of Christ Jesus. So we now take the payment of the cross to our debtors and settle all of our debts with them. And I'm speaking of the debtors in the spiritual realm. The payment Christ made for us was made in full. We are just issuing proof of payment as a child of God to our debtors. We are no longer in debt. So their operations in our life need to cease. The Bible tells us that our ancestors migrated from the Tower of Babel thousands of years ago.

And they split up and went into various directions upon the earth. There were many distinctions, many tribes, many kingdoms. Some became slaves, others became merchants. Some came down into Africa and became hunters. And the list is endless. Those who moved into Africa, they endured the heat. They endured the wild animals. Those who went to Europe endured cooler climates. Either way, people's features changed over time. And in order to survive, your family, your ancestors may have been killers, may have been soldiers.

And in some places, they may have been cannibals eating other people. People, each member of your bloodline added something to the DNA that we have now. And we know this because the Word of God says that all men have sinned. So these sins, we know, are in our bloodline. So here you are now, in the 2000s and you've been born. Or maybe 1980s or so on. You've got a loving mom and a loving dad. But spiritually, you have strong ties to waters, roots, mountain and grave covenants that have all come through your ancestral bloodline.

And like Moses, God will honor your family covenants they have entered into and have not yet been broken. Leviticus says, For the land is defiled. Therefore, I will visit the punishment of its iniquity upon it. And the land vomits out its inhabitants. You shall therefore keep my statutes and my judgments. And I shall not commit any of these abominations. The last process is for all these abominations the men of the land have done who were before you.

And thus, the land is defiled. Let the land vomits you out. Let the land vomits you out also when you defiled it as it vomited out the name of the land. ...that were before it. The example given is the Amorites that took 400 years for their iniquity to be fulfilled. Eventually God sent the Israelites back to conquer the land and destroy the nations living there. It takes a few

generations for sin to pile up to a state that utter destruction is needed to cleanse the land of those sins.

All people who came down into Africa would have started in Egypt. The Kemet's proud, strong black nation, they worshipped all these foreign gods. Egypt, many pagan gods were taken by the ancient African people and their tribes to be their gods as they progressed into Africa. These covenants, heritage of black, could still be speaking in your life. And the same if you are a white person who passed through Europe and worshipped Roman gods and Odin. Those covenants your ancestors have entered may still be speaking today in your life.

One of the telltale signs that you may have an issue in the realm of the spirit is when people start speaking about spiritual gifts. They speak about having the gift of seeing dead people. Now we know that the word of God says the dead know nothing. And when Jesus explained, he said that the rich man went to the place that was designated for him. And when he wanted to come back to the earth to warn others, Jesus said there are people upon the earth who are warning them.

So we know the dead can't come back to life or can't come out of the grave to be seen of men. These are demonic spirits. Now in order for you to see these demonic spirits, you either have to be in Christ, rooted, having your spiritual eyes open, or through your bloodline, there may be a spirit of divination that allows you to see these spirits. Other people have used these so-called gifts in various ways. They have said that they can communicate to the dead.

They have said that they can read your fortune. They can see things and these are gifts that they've inherited through their bloodline. But this is a spirit of divination. These gifts will keep working until they are renounced and broken and the benefits of them repented. In Daniel chapter 9, we see that Daniel repents for the sins of his ancestors to God because he knew that the sins and whatever covenants they have entered into were still speaking to him while he was around.

And yet he was a faithful man of God who didn't do no wrong in the eyes of the Lord. But because of his ancestors, he repented of their sins. As the story goes, Daniel and the people of Israel were in captivity because of the sins of their ancestors. And that is a picture for you and I who are struggling with generational curses. As we are. Currently in captivity because of the sins of our ancestors. So Daniel, through no fault of his own, was a slave because of what his ancestors done.

And sometimes you and I can feel just like that. A slave. A slave to our job. A slave to our kids. A slave to our friends. A slave to our families. A slave to our addictions. Because we have not addressed the conditions that brought us into such situations. The truth of the matter is our

ancestors weren't always God-worshipping people. And by God, I mean the God of Israel. We worshipped various gods, foreign gods. A mix of ancestral worship. A mix of gods.

A mix of statues. A mix of worshipping the moon, the sun, the planets, and so on. And because of this, our bloodline is or was spiritually owned by one or more gods. Now listen to this very carefully. Spiritually, our bloodline is owned by one or more gods. In the realm of the spirit, there are agreements and covenants and records kept against us. These agreements were made at altars. These altars have enforcers. These enforcers, as I said previously, are the ones that when we sleep, we see people with no faces standing at the bottom of our bed.

These same things hold us down. The other things sleep with us. The other ones masquerade as family members. The other ones want to give us secret knowledge, wisdom, whisper to us, communicate things to us. These are the enforcers of the agreements that are in our bloodline. These are the telltale signs that I am under a generational curse. You may say, but I'm born again. And this is what I'm leading to. The Bible says that you cannot serve two masters.

So, if we are owned spiritually through our bloodline to all these other foreign gods, and we have given our life to Christ, but we're still operating with the benefits of those foreign gods, we are still serving two masters. We have to break covenant with the masters that our ancestors have brought into our future. This is vital because we do not want that door our ancestors open to be opened to our children because the spirits will move from you to our kids if we don't address the issues now while there is still time.

We are considered the temple, the house of the Lord, the dwelling place of God. But if we are sold off to other gods, how can God come and dwell in us? We see for Abram that all the males had to have the foreskin cut off. This covenant meant that all the seed that proceeded from the generations of Abram would serve God and serve God only. They would serve no other God. That seed will be... Women who also serve God, or will go to women who also serve God.

That is why God was very big on the men not sleeping with foreign women, because foreign women meant that God's seed is going to go into these women who serve foreign gods. Jesus purchased us with his blood. He needs to get what he paid for. And if we've accepted the payment, then what he has purchased, which is us, need to serve him and him alone. Malachi 3 verse 3 says, He will sit as a refiner and a purifier of silver. Silver is always in connection with redemption.

He will purify the sons of Levi and purge them, a gold and silver, that they may offer to the Lord an offering of righteousness. There is no record of silver in heaven. All purification required and all refinement will be done here upon the earth on you and I. There is no

refinement in heaven. Everything that does not bring out the true silver quality in us must be removed from us. Silver is purified seven times before it is given a pure silver rating.

Seven represents divine perfection. Genesis 2 verse 2 says, God rested on the seventh day. Everything made was complete, good and perfect. The Hebrew word for seven is Sheva, from the root Savah, which means full, satisfied, have enough of. Sometimes it takes time to overcome something. So when we find ourselves repeating the same process over and over, we are fighting this battle on one thing. It's a purification process that we are going through.

That is why our righteousness will never work. The righteousness asked for and called for by God is His righteousness. It is perfect, it is separated, it is holy, it is associated with the Lord for the work of the Lord. I recall there was a lady I was helping and she wanted some quick fix to her problems that she had. And she had consulted over 80 gurus, spiritists, yoga masters, she did Catholic magic and she did quite a lot of things over the years.

I think it was 20 years, I think it was 20 years, from the ages of 20 to 45, she had been practicing all of this new age stuff. When we looked at her bloodline, her bloodline, her people were violent people. She recalls her grandfather was a serial rapist in the area. He raped many women. Her father was off, mentally off. I don't think that's the correct word to say, no. Mentally disabled. And he used to abuse her. He would chase her friends away.

Her boyfriend molested her. She was molested 19 times and so the list was endless in the battles that she had to face. She was never married and she had no kids. She watched the mother being beaten constantly and always left bloodied by her dad. And she came to Christ and she was seeking out help and she'd been to many different churches. And so I said I will assist her. But because we were on two different continents, it wasn't easy just to automatically assist her.

So I gave her some prayers and these prayers started introducing light into her life and it also started to mess with the demons that were messing around with her. And when we were exploring her relationship with her parents and her ancestors, I found that the demons kept re-entering into her. And I said to her, look, you need to forgive your dad, forgive your mother, forgive your grandfather and forgive the people who have hurt you, who have assaulted you.

And this was a bone of contention with her as she was bitter and she point-blank refused to forgive any of them. And I said, your refusal to forgive your ancestors, to pray for them, to release them from their crimes is going to hinder your deliverance in life. She just couldn't bring herself to forgive. And because of this unforgiveness she had towards her dad, because of this unforgiveness she had towards her grandfather and her people, she remained trapped.

And her and I had to part ways because if she's not prepared to forgive, then the door stays open. So whatever she does today will only keep the door open for those same demons to come back tomorrow. And that is exactly what she was experiencing. So as a trade-off, she complained that a lot of the prayers would kick some demons out and make others angry. And so she made an agreement that she wouldn't pray the prayers and they wouldn't torment her as much.

And she ultimately settled for that. So Jesus never really got what he purchased with her, because instead of her fighting the good fight of faith, she chose rather to make an agreement, another agreement, to say that I won't pray these fire prayers. I won't stand in faith. I won't decree, declare. I won't put on the armor of God. I won't consecrate my life to Christ Jesus. I won't walk in the righteousness of Christ Jesus, be dedicated to God. I will pray gentle Jesus prayers.

And with the gentle Jesus prayers, you will not attack me. And that was very sad. And so my point being is that when she was born, she inherited a system that she never agreed to. And you and I, when we are born, we inherited systems. We. Never really agree to. We just grew up thinking that this was normal. But the minute we accept Christ Jesus and we begin to, now we put aside all of these 110 different Gospels, we focus on the Gospel or the doctrine of Jesus Christ.

When we start applying the doctrine of Jesus Christ, then we realize that what we've inherited, what we think of as normal, what seems natural to us to do, is actually wrong in the eyes of Christ Jesus. And God says, I am a fair God. If the Son will not walk in the ways of the Father, meaning if the parents are evil, but choose a righteous way, then God is more than able to bless us in that way. And this is what He is saying to us now. Go back and look at your family bloodline.

See the covenants that are still in play. Forgive them. Repent of them. All transgressions, all inequities, nail it to the cross. Release yourself from the burdens of those contracts and agreements. And when you start doing that, then choose to serve God and God alone, so that you have only one Master in operation in your life. And all the covenants that are coming back from the days of Adam and Eve and Noah and passing through Africa and passing through Europe will all be broken.

And by doing so, we start working on being set free completely in our physical, emotional walk of life. I'm your host, Ashton Campbell, and I hope this podcast has been insightful as it was to me also, because as I was going along, some things have entered into my mind that I

spoke of now. In the next installment, we are going to continue looking at generational curses. What I am trying to do is to show you that it's not just about a single prayer.

We have to also address the habits that we've picked up, the decisions that we make based upon what our family has decided, the notions and the traditions of our family, to walk in a way of righteousness that Christ has left for us. Because breaking generational curses is not just limited to the prayer, it's a lifestyle change. And we have to call upon the Lord to introduce this new lifestyle change in our lives, so that we can walk in the covenant that God has made for us, the covenant that gives us the blessings of God, the love of God, the righteousness of God, that gives us the faith that gives us the faith that is required to approach God with a good conscience, that we're no longer worried about what our ancestors did that are affecting us today negatively.

It's not just about alcohol, it's not just about drugs, it's not just about womenizing, it's not just about obesity, gluttony, it's not just about finances and poverty, it's about a complete lifestyle overhaul. That is how we break these generational curses. Thank you very much. I'll catch you in the next one. God Cost.
